

## **HTC S621 Easy Email Setup** (For MSN Hotmail or Windows Live Mail e-mail service)

Rogers makes setting up your wireless e-mail service quick and easy. Before beginning, please ensure you have everything you need to begin enjoying the time-saving benefits and convenience of sending and receiving wireless e-mail on the go.

### **Wireless E-mail Checklist:**

E-mail-capable wireless device    E-mail Plan    ISP-based E-mail Address

- STEP 1      Insert the SIM card and the battery into your wireless device**
- Charge your device for 20 minutes
- STEP 2      Turn on your wireless device**
- Ensure **EDGE** or **GPRS** appears on screen (indicates device is connected to the Rogers wireless network)
- STEP 3      Set up your wireless e-mail service**
- Follow these steps for [MSN Hotmail or Windows Live Mail](#):
    1. Press **Start** and scroll to **PocketMSN**, select MSN Hotmail
    2. Enter your Hotmail e-mail address and password
    3. If you want your smartphone to save your password, so you won't have to enter it every time you want to check your mail, select **Save password**, which will put a checkmark in the checkbox.
    4. Press **Sign In**.
- STEP 4      Begin sending e-mail**
- **On your device, select Menu > Send / Receive**
  - You may also access your mail account from your device using Internet Explorer. Go to <http://mobile.msn.com>.
