

Samsung Jack Easy E-Mail Setup **(For Windows Live (Hotmail) e-mail service)**

Rogers makes setting up your wireless e-mail service quick and easy. Before beginning, please ensure you have everything you need to begin enjoying the time-saving benefits and convenience of sending and receiving wireless e-mail on the go.

Wireless E-mail Checklist:

E-mail-capable wireless device E-mail Plan ISP-based E-mail Address

STEP 1 Insert the SIM card and the battery into your wireless device

- **Charge your device for 20 minutes**

STEP 2 Turn on your wireless device

- **Ensure EDGE or GPRS appears on screen (indicates device is connected to the Rogers wireless network)**

STEP 3 Set up your wireless e-mail service

1. On your device, press **Start -> Messaging** and select **New E-Mail Account**
2. Enter your e-mail address and select **Next** (Ensure 'Try to get e-mail settings automatically from the internet' is checked)
3. Auto Setup will find the settings. Select **Next**
4. You will be directed to Windows Live screen. Scroll down and select 'Sign in to Windows Live'
5. Review Windows Live Terms of Use and Privacy statement. Only if you agree select Accept
6. Enter your e-mail address and password and select **Next** (Check **Save password**, so you don't have to enter it every time you check e-mail)
7. Select whether you to show Windows Live on your home screen and select **Next**
8. Select the items you want synced to your device and select **Next**
9. Your device will now sync with your inbox (may take a few moments)

STEP 4 Once synchronization is complete you are now ready to send/receive e-mail
